## FULL STACK DEVELOPER

Full Stack Developer with over 3 years of experience, proficient in developing scalable and robust applications using technologies like VueJS, NestJS, GraphQL, NATS, and Redis. Skilled in ReactJS, C# .NET, MySQL, and Bitbucket, with expertise in server monitoring tools such as Hetrix Tool, Proxmox, and Azure AI. Adept at Linux server configuration via CLI and writing YAML files for deployment configurations. Experienced in a range of technologies including Git, Azure Blob Storage, NodeJS, MongoDB, and Java. Passionate about leveraging technical expertise to deliver impactful solutions while embracing opportunities to learn and adopt new technologies.

---

## PROFESSIONAL EXPERIENCE

Lapasar Sdn Bhd

June 2024 - Present

### Senior Full Stack Developer

- Spearheaded the development and maintenance of a scalable B2B and logistics platform using VueJS, NestJS, GraphQL, Python, NATS, Kafka, and Redis.
- Designed and implemented backend systems and responsive frontend interfaces to enhance user experience and performance.
- Integrated secure financial payment systems, including Maybank Financial, for seamless transaction processing.
- Implemented the Saga pattern to ensure data consistency in distributed transactions.
- Collaborated with cross-functional teams to align technical solutions with business objectives.
- Optimized system performance using caching mechanisms and message brokers like Redis, NATS, and Kafka.
- Contributed to development process improvements by adhering to best practices and modern engineering standards.

Mywam Sdn Bhd

Apr 2022 - May 2024

### Full Stack Developer

- Developed 70+ Web APIs using C# .NET, ensuring scalability and efficiency.
- Designed and developed the frontend using ReactJS and Redux, creating reusable components to improve code quality and reduce redundancy.
- Assessed and developed new major modules, documenting each for clarity and maintainability.
- Resolved critical customer issues, saving the company RM10,000 in subscription costs.
- Coordinated with project and marketing teams for task support and project implementation.
- Managed code reviews, GIT merging, and deployments for both development and live environments using Bitbucket.
- Configured Linux servers, including Docker installation and container creation, for web and server applications.

## Quiware

June 2020 - Sept 2020

### Graphic Designer

- Created visually impactful display, marketing, and packaging materials aligned with brand identity and strategy.
- Designed cohesive marketing assets including brochures, banners, signage, and print materials to support promotional campaigns.
- Developed custom website layouts and templates with consistent branding and user-friendly design.
- Built strong brand identities by designing cohesive visual systems across logos, letterheads, and corporate materials.
- Collaborated with clients to present design mockups, gather feedback, and implement revisions for final approval.
- Conducted research on industry trends in Food & Beverage to ensure designs were current, competitive, and market-relevant.

## Natugee

Feb 2019 - Aug 2019

### Creative Creator

- Planned and executed digital marketing campaigns across social media platforms and display advertising channels to drive brand visibility.
- Designed and produced engaging Instagram Stories featuring animated graphics and motion content.
- Created and managed email marketing campaigns with automated sequences using MailChimp, improving audience engagement.
- Developed creative content and designs for marketing campaigns, advertisements, and internal communication materials.
- Maintained and updated WordPress website content, troubleshooting design and content issues to ensure smooth user experience.

---

## EDUCATION

### Diploma in Computer Science

UiTM Kuala Terengganu | 2019

## SKILLS

**Programming Languages:** C++, Java, C#, JavaScript

**Frameworks:** VueJS, ReactJS, NodeJS, C# .NET, Bootstrap, NestJS, TailwindCSS

**Architecture:** NATS, Redis, Kafka

**Tools:** Git, Linux, Docker, Bitbucket, Hetrix Tool, Azure AI, Jira

**Databases:** MySQL, MongoDB, Prisma, GraphQL

**Cloud Architecture:** Azure Blob Storage, AWS S3, EC2

**Soft Skills:** Problem-solving, Lifelong learner, Effective communication, Team collaboration
